

Model BP100P polished speaker to be discontinued

Federal Signal will be discontinuing the model BP100P “polished” speaker. This change does not affect the standard BP100 model that has a black finish.

Timing

At this point, only limited quantities of components are available to produce BP100P speakers, so new orders will only be accepted “while supplies last”.

Recommended Alternative

Federal Signal offers a number of other 100-watt speaker models that can be suitable alternatives to the BP100P model. See table below.

Obsolete Model	Substitute Models	Description
BP100P	BP100	100-watt speaker, neodymium driver, aluminum housing with black finish
	CP100-S	100-watt speaker, neodymium driver, highly polished stainless steel with bumper mount
	ES100	100-watt compact speaker, neodymium driver, aluminum housing with black finish
