

New Release of Commander® 8" LED Interior Lights

Federal Signal announces the release of the new Commander® 8" LED Interior lights. With its 8" round design, it is the direct replacement for 8" halogen or incandescent lamps utilizing standard industry hole patterns and cutout dimensions. Multiple LED colors and housing types are available and can eliminate the high cost of lamp replacement associated with halogen or incandescent lamps.

Models are available with Chrome and White housings, including snap-in models. The COM8 lights have hi-lo intensity inputs, a low amperage consumption (1.72 High/.213 Low) and can operate from a 12 VDC power source.
