

## **LED TCL Traffic Clearing Lights now available with Red, Blue, Amber, White and Green LEDs**

LEDTCL97R-R

LEDTCL64C-R

Federal Signal's LED Traffic Clearing Light (TCL) is now available with Red, Blue, Amber, White, and Green LEDs.

The TCL is designed to bring attention to drivers as a fire apparatus, ambulance, or work truck is approaching from the rear of the vehicle. The optics and unique sequence of flash patterns reflect light to the driver's rear-view mirror and side mirrors warning them of the approaching emergency vehicle.

LED Traffic Clearing Light and perimeter warning lights work together to help warn roadway traffic. While perimeter lights provide 360-degrees of warning light around the emergency vehicle, the LED TCL produces 250+ feet of directional light to the front of the emergency vehicle.

LED Traffic Clearing Light is available in 6x4 and 9x7 standard models. The LED TCL 6x4 is sold in pairs and the White, Red, and Amber models are available as a configurable option for Federal Signal's Navigator® light bar. The LED TCL uses the same mounting holes as traditional 6x4 and 9x7 warning lights and can be mounted with or without a Chrome bezel.

### FEATURES

- Delivers 250+ feet of direct warning light
- Available in 9x7 and 6x4 sizes
- Available with White, Amber, Red, Green, or Blue LEDs
- Models with Red and Amber LEDs are available with a color lens
