SignalTech® LED Light Series

SignalTech® LED lights are designed for emergency vehicle specifications and engineered to meet the demands of various work trucks, including construction, municipal, utility, and tow and recovery. SignalTech LED lights feature a high-impact resistant polycarbonate housing and feature LED technology to reduce maintenance costs.

Flashing LED Light Kits

Each LED light head produces an attention-getting warning signal that meets SAE J593 Class 1. The flashing LED light heads are offered in 4-inch round and 6-inch oval kits. The kits come equipped with a rubber grommet and sealed wire harness.

S/T/T, Turn, and Backup LED Light Kits

Complement your LED light kits with SignalTech S/T/T (Stop/Tail/Turn), turn and backup LED light kits. All LED light kits feature a triple-sealed plug that allows for easy installation to existing backup, S-T-T and turn circuits. The LED lights operate at 12 or 24 Vdc and are voltage regulated for consistent light output. SignalTech lights comply with DOT requirements.

Side Marker/Clearance Lights

SignalTech Side Marker/Clearance lights complement flashing or S/T/T lights. These lights available in 2-inch and 2.5-inch round models and operate at 12 Vdc.
