

# LIST PRICE CHANGE

## ANNOUNCING NEW LIST PRICES EFFECTIVE OCTOBER 4, 2021

To our valued customers in the Police/Fire and Work Truck Markets,

Due to the ongoing effects of the pandemic, we have experienced significant cost increases across broad segments of the global supply chain, impacting a wide variety of raw materials, components, and freight.

As a result, Federal Signal will implement an increase to our List Prices of approximately 10% effective October 4, 2021.

Following is a summary of the October 4, 2021, List Price changes:

- A majority of our product lines will increase approximately +10%.
- Pathfinder® Siren models that were increased +10% on 7/1/2021 will not change.
- Stinger® Spike Systems models that were increased approximately +4% on 7/1/2021 will be increased approximately an additional +6% effective 10/4/2021.
- Replacement ROC board List prices will not change.
- PBX Series List prices will increase by a substantially higher amount.
- Additionally, our Minimum Billing policy will change on 10/4/2021. Our new Minimum Billing will be \$100.00 for finished goods and \$50.00 for service items

The new List Prices are effective with new orders placed as of October 4, 2021.

Click here to obtain the new List Price (by model number) [Excel file](#). Please note that the basic data files do not include list prices for “configured” items such as light bars and ILS Systems.

In October, Federal Signal will publish updated PDF files of the 2021/2022 Police, Fire/EMS, and Work Truck Price Books on our [www.fedsig.com](http://www.fedsig.com) website. At this time, due to significant cost/price volatility, printed copies of our Price Books will not be available until further notice.

Thank you for your continued support of Federal Signal products.
