

## Federal Signal releases new products to the PBX Series

Federal Signal announces the release of the Wing Wraps, F-150 bumper and the rubber molding service kit. The wing wraps add a new layer of protection to the vehicle. The wing wraps are available for the Ford Utility, the Ford Sedan, Chevy Tahoe, the Dodge Charger and the Ford F-150.

The wing wraps are made out 14 Gauge HRPO steel to ensure that they offer the needed front end and headlight protection. To protect the product from corrosion and other elements, the wing wraps get e-coated/ powder coated. The units come with a 3 year warranty with rust through warranty.

In addition to the Wing Wraps, an F-150 push bumper model PBX06 is being added to the product offering. The F-150 push bumper is quick and easy to install. As part of the offering, it comes with the option of three top channels to incorporate IPX6 lights which are sold separately.

As part of the service kit, a rubber molding kit, model PBX-SRVKIT1 is now available. Customers can replace the rubber molding if over time the rubber molding becomes worn or damaged. The service kit is quick and easy to install.

### FEATURES

- Simple Installation
- Custom Wing Wrap design for each vehicle model: Chevy Tahoe, Ford Utility, Dodge Charger, F-150 and Ford Sedan
- Mounting Hardware kit included
- E-coated / Black Powder Coat for resistance to various environmental climates
