

CommanderOne[®]

EMERGENCY WARNING SYSTEM CONTROL
ANYTIME. ANYWHERE.

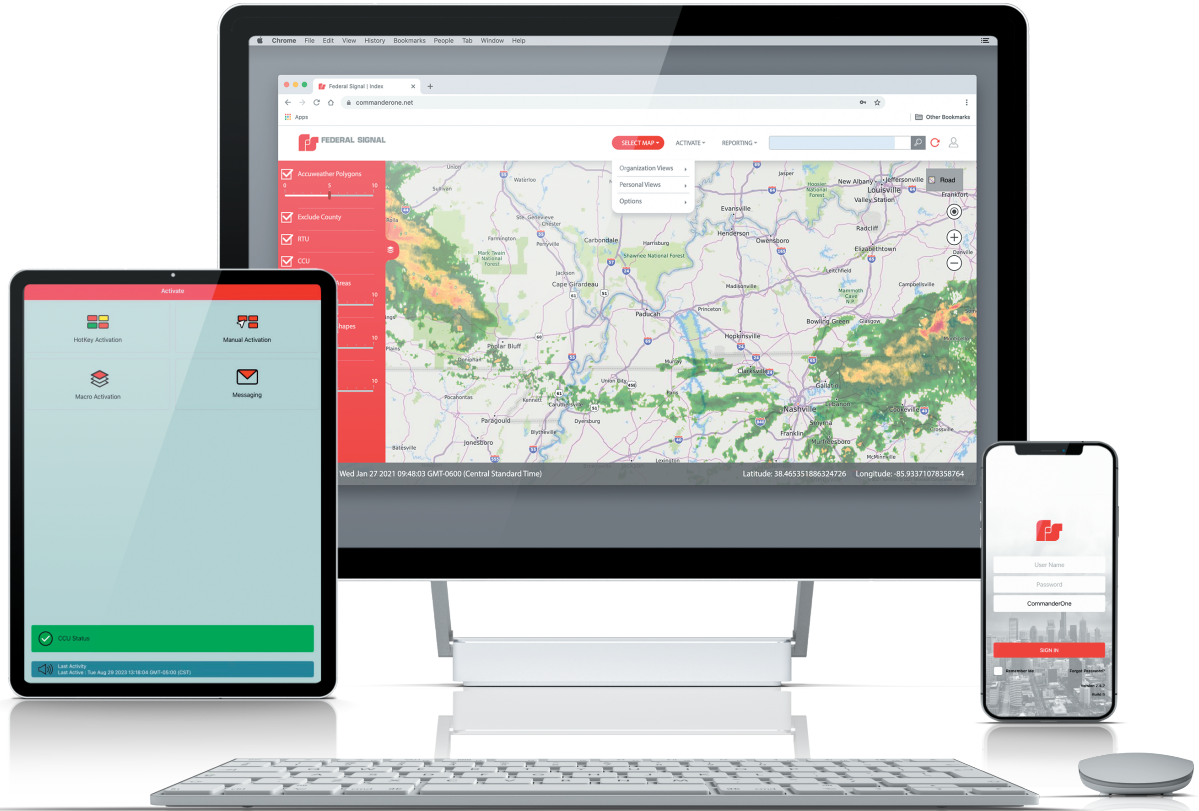

ADVANCE YOUR WARNING SYSTEMS

with **CommanderOne®**

CommanderOne® enables you to monitor and activate your warning sirens from any desktop or mobile device. With CommanderOne, you can leverage your existing Commander On-Premises Warning System to work smarter with our cloud-based platform.

Using our real-time weather data and siren status, you can make important decisions whenever and wherever — keeping your critical assets within reach.

BE PREPARED AT A MOMENT'S NOTICE

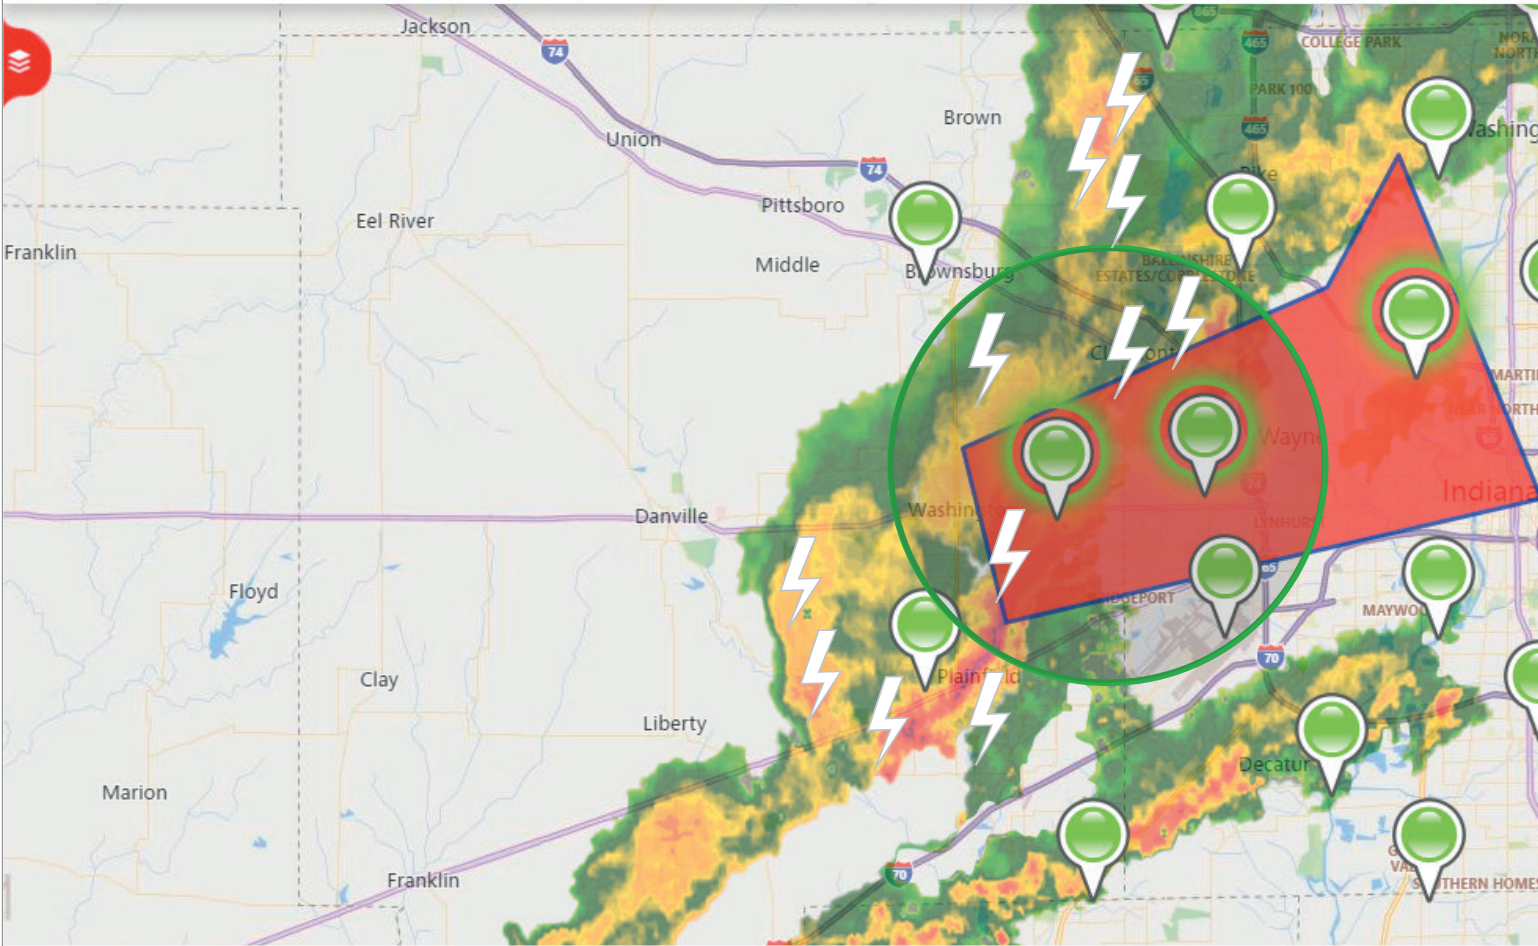

CommanderOne® is secure by design, so you can remain confident in your ability to access your warning system from any web browser or our mobile app.

Web-Based Console

- Control and monitor your sirens and check system status in seconds
- Monitor weather and your siren status from the same console
- Activate predefined areas with hotkeys or activate sirens manually
- Include optional messaging with your activations

Mobile App

- Control and monitor your sirens from virtually anywhere
- Receive push notifications of siren activations and other events
- Activate predefined areas with hotkeys or activate sirens manually
- Include optional messaging with your activations

Lightning Alert

The CommanderOne Lighting Alert add-on feature is ideal to alert employees and communities in industrial plants, chemical plants, outdoor recreational areas, parks, or campuses when lightning strikes are a threat.

With the Lightning Alert feature you can define a radius around your location and be alerted via siren, email and SMS when lightning strikes within that radius.

FEATURES & BENEFITS

of CommanderOne®

ANYTIME, ANYWHERE

Access real-time data to make critical decisions wherever and whenever.

AUTOMATIC UPDATES AND SYSTEM ENHANCEMENTS

Our cloud-based platform is always improving with new features and the latest security practices.

SECURE BY DESIGN

Utilizes IPSEC over SSL, multi-factor and multi-layer authentication. Configure activations with enhanced security levels.

CUSTOMIZED MESSAGING

Quickly send a message template or a custom communication to your staff and first responders.

EASY SCALABILITY

From a few to hundreds of devices by leveraging a global network of data centers to maintain availability while securing your data.

AUTO-SYNC HOTKEYS

If a change is made to Commander, the change is made to CommanderOne automatically.

SOLUTIONS FOR EVERY ENVIRONMENT

To Sync with CommanderOne®

ELECTRO-MECHANICAL SIRENS

The highest quality and most reliable outdoor warning sirens. Ideal for alerting of hazardous weather conditions, fires, dam breaches, floods and chemical spills.

ELECTRONIC VOICE SIRENS & SPEAKER ARRAYS

The highest level of clarity and voice intelligibility available in high-powered outdoor notification systems. Ideal for outdoor areas such as park and recreation areas and college campuses.

IP-ENABLED INTELLIGENT SYSTEMS

Indoor and outdoor speakers to broadcast voice announcements inside and around facilities, in standalone or networked applications.

INDOOR WARNING DEVICES

Share real-time information to building occupants and personnel during emergency situations.

COMMUNICATIONS

CommanderOne can be used with a variety of communications media including LMR, cellular and satellite.
